The future has never looked this mint blue

Our new and colourful Bio Dunisoft premium napkins are both renewable and fossil free. Good for nature, good for you and good for the future of this planet. Discover exciting and inspiring new ways to bring a goodfoodmood to your sustainable table and make the future look both bright and colourful.

It's a fact.

One third of all food is wasted. But it doesn't have to be this way. With pioneering Bio Dunisoft® napkins, you can be part of the solution. Bio Dunisoft® premium napkins feature an OC Biobinder™ made from corn, lemon, and other food waste from the food industry and wheat and corn cultivation. Consequently, they are fossil free! – a beakthrough for our industry.

Show your true colours of sustainability.

With our collection of Bio Dunisoft® premium napkins in colour, you can serve your guests sustainable premium napkins in colours they never thought of as eco, giving echo in your neighbourhood and into the future.

Don't let the opportunity go to waste.

We need to find fossil free and renewable solutions not to contribute CO2 to the atmosphere. As first in the industry to use bio-based binders, we will replace all our current Dunisoft material in January 2024, at the latest.

Team work makes the dream work.

Together on our mission to create sustainable goodfoodmood, we're exploring many avenues. To create the OC Biobinder™ we teamed up with award-winning Swedish company OrganoClick. They are acclaimed for designing renewable, functional cellulose-based materials.

Confidence-inspiring certifications

The products in our collection carry a variety of environmental and quality certifications. They underline the sustainability and quality of our products. Some also shed light on how to dispose of them after use responsibly.

OK COMPOST

The OK Compost Industrial and the OK Compost Home label, from the certification body TUV Austria, indicates that the product is suitable for composting. As the name suggests, OK Compost Industrial ensures the product is suitable for industrial composting and meets the European standard EN 13432. OK Compost HOME products can be put on the compost heap in your garden at home

THE FOREST STEWARDSHIP COUNCIL® (FSC)

Ensures that the product is made of wood from forests managed in an environmentally appropriate, socially beneficial and economically viable manner.

NORDIC SWAN ECOLABEL

Identifies the best products on the market from an environmental point of view. For instance, it confirms our stearin candles consist of 90% renewable materials and minimise soot emissions.

THE RAL QUALITY MARK

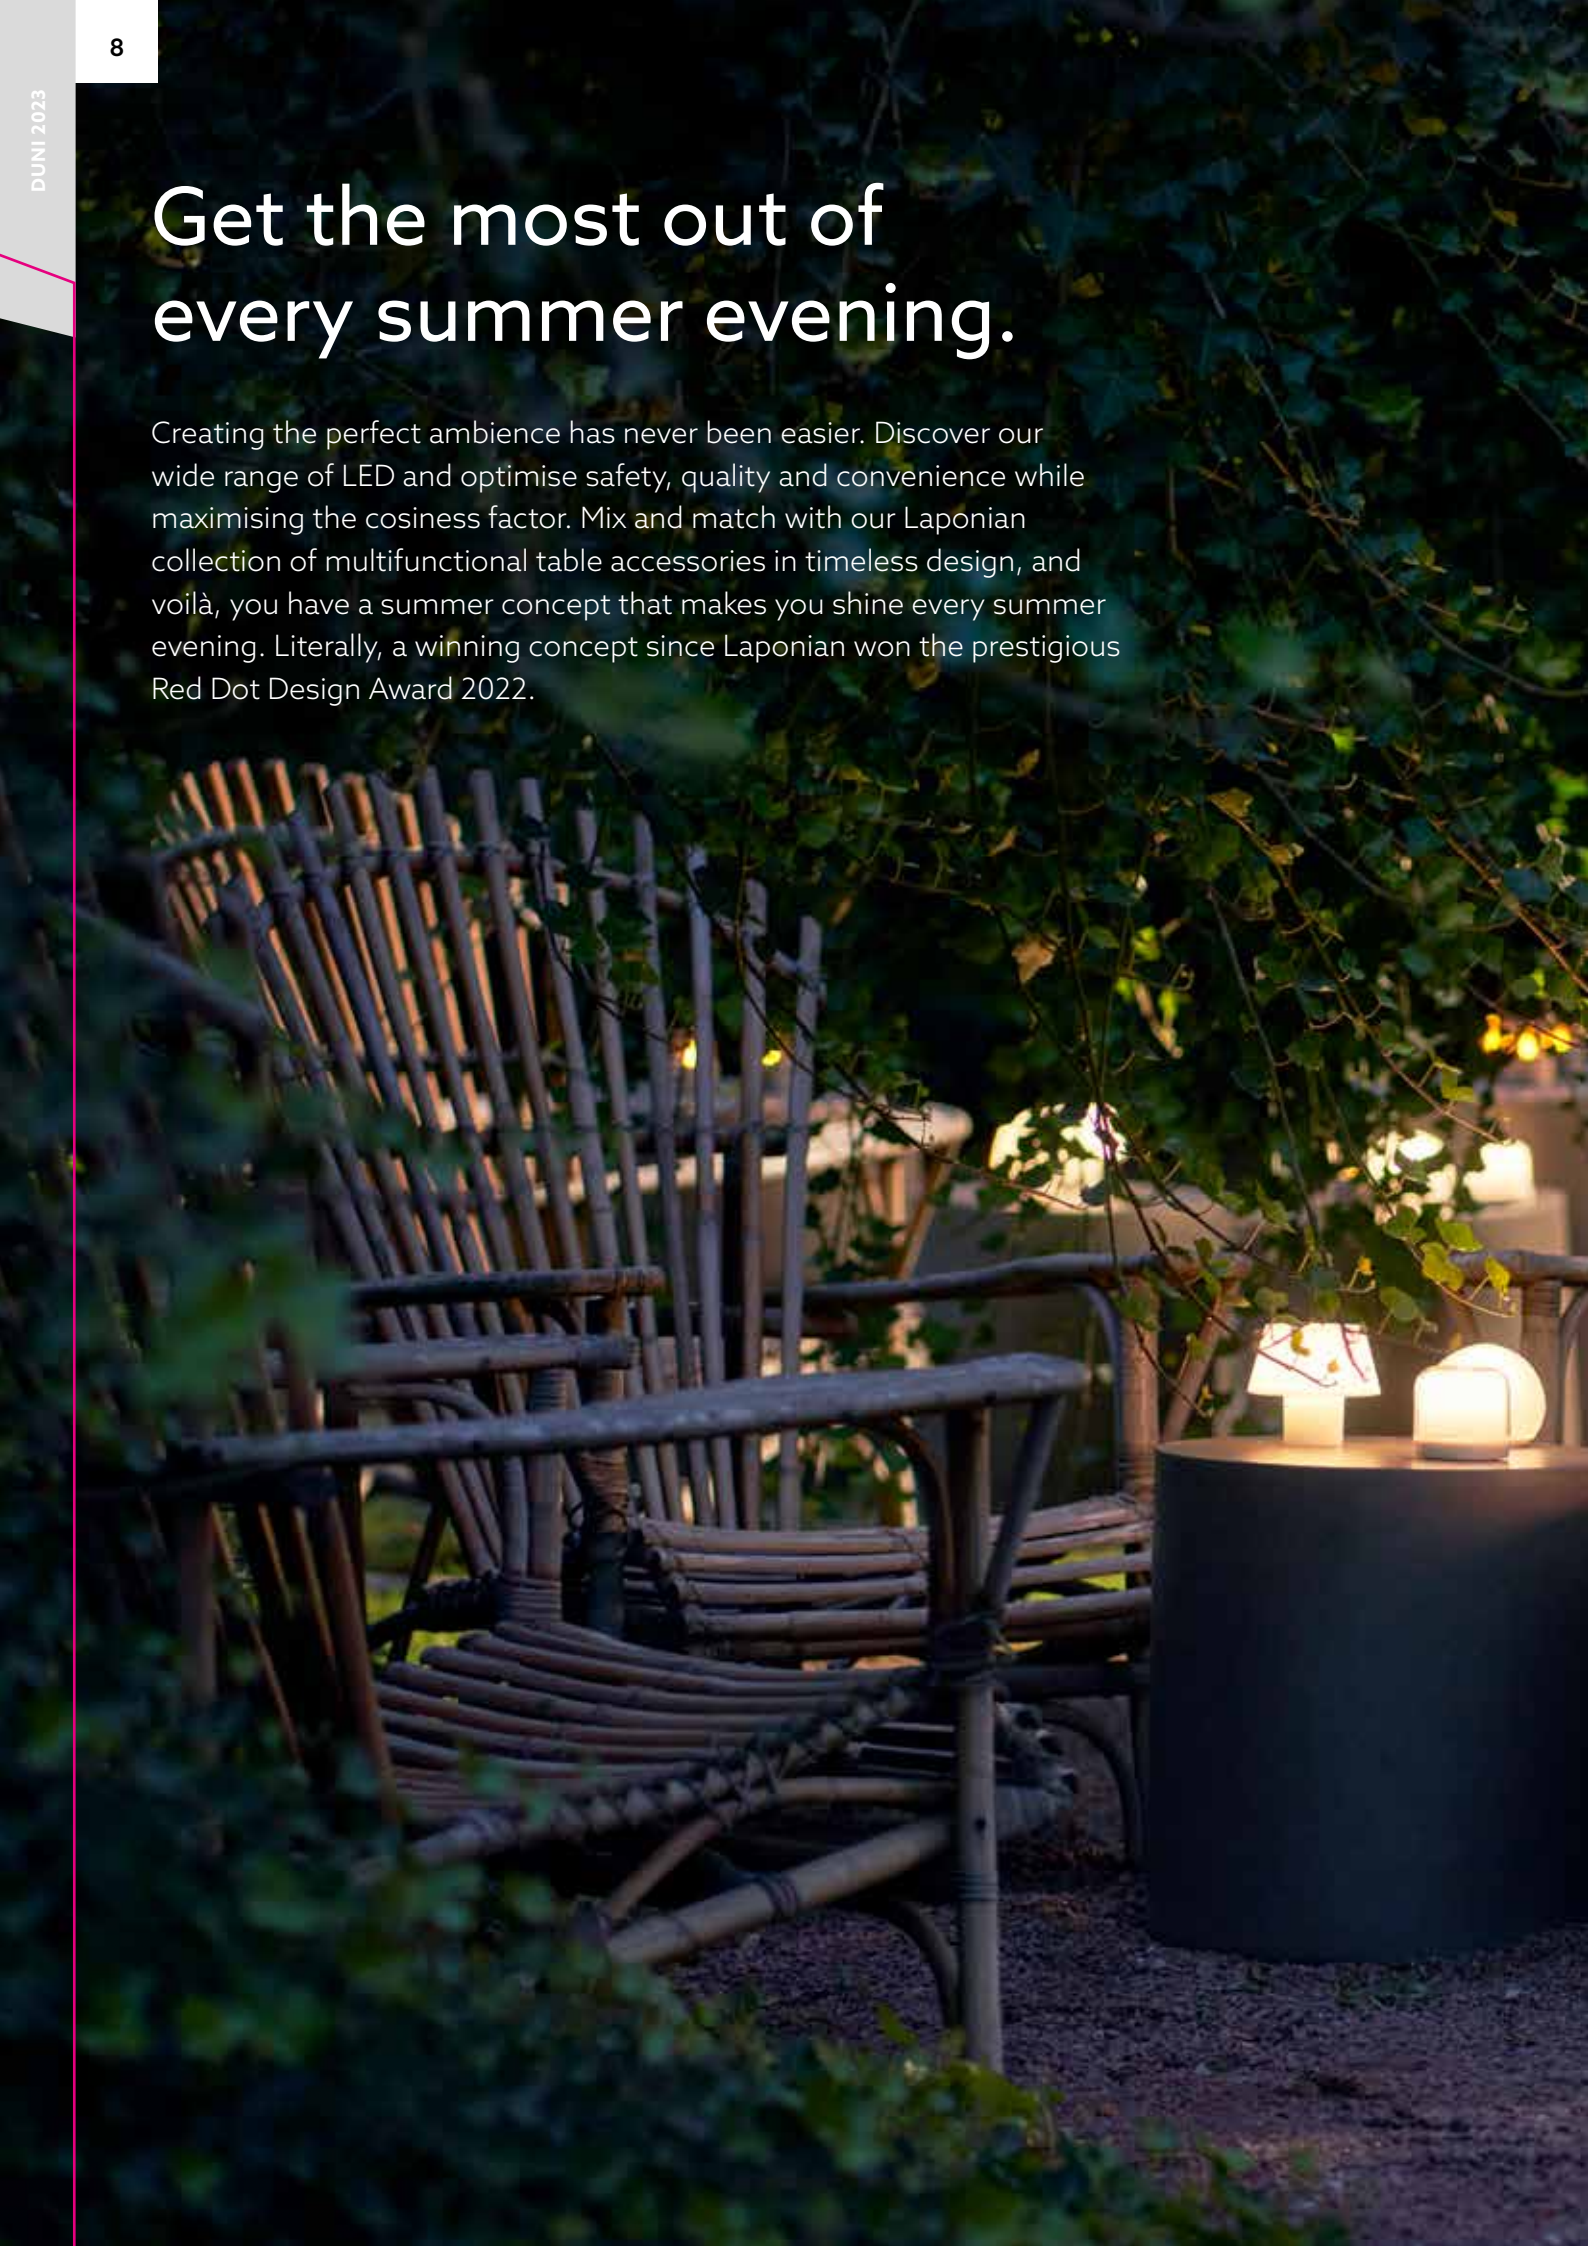
Awarded by the European Quality Association for Candles. It guarantees the candle burns cleanly, contains no hazardous materials, retains its shape and is safe and reliable.

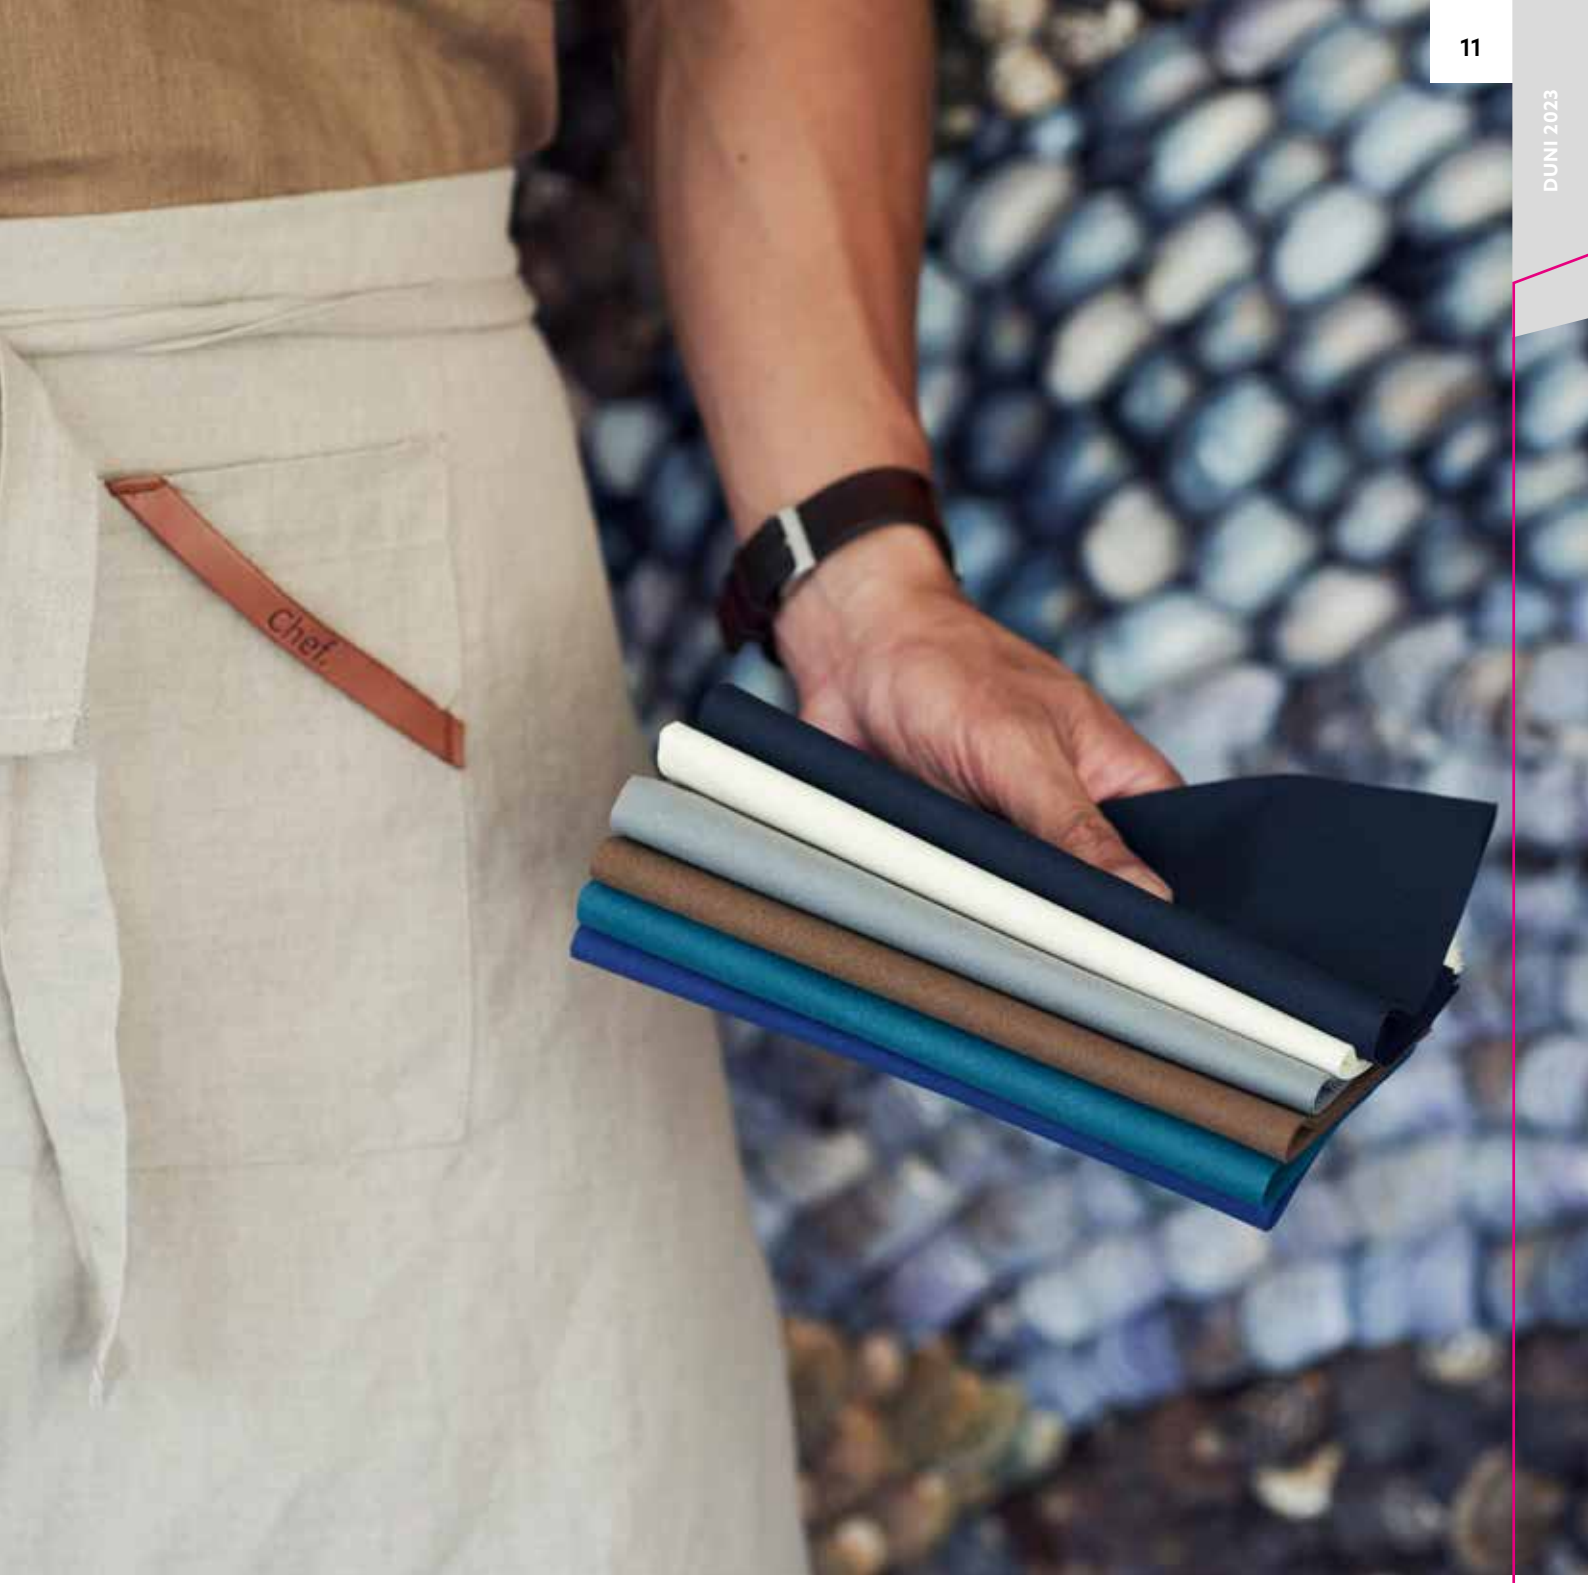
Elevate the mood of any occasion

We have the solutions so that you can solve your business in the smoothest way. Even when it gets breezy or stressful on the terrace, or you lack the qualified staff to serve your guests. With our functional design, you can work more efficiently, making savings in both time and costs. But never in a boring way. Always by giving your guests a rich experience of beautiful colours and designs.

Get the most out of every summer evening.

Creating the perfect ambience has never been easier. Discover our wide range of LED and optimise safety, quality and convenience while maximising the cosiness factor. Mix and match with our Laponian collection of multifunctional table accessories in timeless design, and voilà, you have a summer concept that makes you shine every summer evening. Literally, a winning concept since Laponian won the prestigious Red Dot Design Award 2022.





Colour us excited!

This thriving season we went to nature as a pure source of inspiration. Discover our sustainable premium napkins Bio Dunisoft, now available in the many colours of nature, not only eco-brown. Sustainable, fossil free and renewable bio material, because nature both inspires us and is our target to protect.
