

# Tork Kitchen Cleaning Cloth

473179

Think ahead.

## Description

Keeping a busy kitchen clean is easy with these all-purpose kitchen cloths. Their thick, highly absorbent design can swiftly mop up tough spills. Plus, they're heat-resistant and stay strong even when wet for safe and reliable use. As these cleaning cloths are crafted from biobased\* fibres and come in packaging made from recycled materials, you can lower your environmental impact. When used with the single-sheet dispensing of our Tork W4 cleaning cloth dispensers, they'll cut waste and promote hygiene, too.

\*TÜV Austria OK Biobased certified product

- Avoid having to buy several types of cleaning cloth for kitchen tasks – this thick, cotton-based design can handle any mess.
- Safely and successfully clean hot surfaces with this heat-resistant cleaning cloth.

## Environmental Information

<b>Tork Kitchen Cleaning Cloth</b>	Viscose  Cotton
<b>Viscose</b>	Viscose fibres are produced from cellulose pulp. Cellulose is dissolved in alkaline solution by a chemical reaction with carbon disulphide and then spun to fibres in an acid spinning bath. The fibres are washed, dried and cut to intended fibre length.
<b>Cotton</b>	Cotton is natural fibres that normally are washed, bleached and dried.
<b>Food Contact</b>	This product fulfills the legislative requirements for Food Contact materials, confirmed by external certification performed by a third party. The product is safe for wiping food contact surfaces and may also come occasionally into contact with foodstuffs for a short period of time.
<b>Environmental certification</b>	This product is certified for FSC® with certificate number SA-COC-008266.
<b>Packaging</b>	Fulfilment of Packaging and Packaging Waste Directive (94/62/EC): Yes
<b>Article creation date and latest article revision</b>	Date of issue: 01-07-2021 Revision date: 04-06-2025
<b>Production</b>	This product is produced at Suameer - NL mill and certified according to ISO 9001 and ISO 14001 (Environmental management systems).
<b>Disposal/destruction of used product</b>	This product is mainly used for industrial processes. When used in industrial processes the product might through use be contaminated with different substances. This will determine how the used product will be handled/disposed of/destroyed. The product itself is suitable for incineration. If used in industrial processes contact local authorities before destruction.
