## Environmental Information

### Tork Kitchen Cleaning Cloth

Viscose

Cotton

#### Viscose

Viscose fibres are produced from cellulose pulp. Cellulose is dissolved in alkaline solution by a chemical reaction with carbon disulphide and then spun to fibres in an acid spinning bath. The fibres are washed, dried and cut to intended fibre length.

#### Cotton

Cotton is natural fibres that normally are washed, bleached and dried.

#### Food Contact

This product fulfills the legislative requirements for Food Contact materials, confirmed by external certification performed by a third party. The product is safe for wiping food contact surfaces and may also come occasionally into contact with foodstuffs for a short period of time.

#### Environmental certification

This product is certified for FSC® with certificate number SA-COC-008266.

#### Packaging

Fulfilment of Packaging and Packaging Waste Directive (94/62/EC): Yes

#### Article creation date and latest article revision

Date of issue: 10-07-2023

Revision date: 18-07-2025

#### Production

This product is produced at Suameer - NL mill and certified according to ISO 9001 and ISO 14001 (Environmental management systems).

#### Disposal/destruction of used product

This product is mainly used for industrial processes. When used in industrial processes the product might through use be contaminated with different substances. This will determine how the used product will be handled/disposed of/destroyed. The product itself is suitable for incineration. If used in industrial processes contact local authorities before destruction.
