

## **ENVIRONMENTAL AND PRODUCT DATA SHEET**

### **Product**

Rechargeable Cordless Lamp- ALAEA

Size of the lamp:  $\varnothing$  11.5cm, H 6cm

Lamp battery: Lithium-ion 3.2 V, 1800 mAh

The luminance is 50Lm.

LED Lamp-2700K, 1W, IP54

Remote Control Battery: CR2025

### **Power Consumption**

With Dual Charging Station: 0.01kWh

With 6pcs Charging Station: 0.03kWh

With 24pcs Charging Trolley:0.12kWh

Lamps can be charged 1000 times.

### **Material**

Aluminium / Stone shell

Electronic parts

### **Packaging**

Inner: PET, Paper Carton box

Outer: Corrugated board

### **Field of Application**

Designed for professionals, Duni's qualitative LEDs are rechargeable, energy- and cost efficient. A modern lamp for moments to cherish. ALAEA is a cordless LED-lamp providing cosy atmospheric lighting to your venue. Switch colour and brightness, depending on mood or occasion, with the remote control.

- Cordless and rechargeable
- 16 dimmable colours & warm white
- 5 hrs charging time and up to 14 hours of function time.
- Robust material
- Energy efficient

**For indoor and outdoor use (But not water resistant). This lamp has a different power unit.**

### **EC Directive 94/62/EC on Packaging and Packaging Waste**

The packaging complies with all essential requirements as defined by 94/62/EC. For example, minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, material recovery, energy recovery or composting.

***Product Safety***

Duni manufacturing units are certified according to the international quality system ISO 9001. They have also implemented or will implement the environmental management system ISO 14001.

Testing and safety assessment of the product is performed independent institutes and shows the product are fulfilling relevant legislation and standards. For further details, see Declaration of Conformity.

We declare that the above rechargeable cordless lamp with remote control conforms to:

- 2014/30/EU Electromagnetic Directive, EMC
- 2011/65/EU-2015/863/EU RoHS directive with the amendment

***Eco-design requirements***

Commission regulation (EU) 2019/1782 laying down eco-design requirements for external power supplies pursuant to Directive 2009/125/EC.

***Management of used Products***

The product complies with:

- EU Directive 2012/19/EU Product Recoverable according to WEEE
- EU Directive 2006/66/EC on batteries and accumulators and waste batteries and accumulators

***Recycling***

Collection, sorting and material recovery are all part of the recycling process. Make sure to follow local guidelines for electronics and battery waste handling.

Recycling of the packaging material is possible for producing new products. As recycling is dependent on local waste handling infrastructure make sure to check with the local recycling company.

***Validity***

This is issued 2025-01-01. It is revised when there is a change in the manufacturing process, in the product or in legislation.
